EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Gregory Montone on February 17, 2006.

The application has been amended as follows:

In the Abstract:

Blank spaces between lines 6 and 7 have been deleted so that two paragraphs are adjoined into one paragraph.

Reasons for Allowance

Claims 3-10 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Lackey, taken alone or in combination of other references, does not teach or fairly suggest a semiconductor integrated circuit comprising, among other things, a rising time up to full amplitude at any one of buffers in the first signal path and the second signal path is longer than a pulse width of the first pulse, as set forth in the claims.

Art Unit: 2819

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
